

SEM10-C-Engel CC100

TFT-monitor 10,4"

Overview

- 10,4" TFT / LCD Monitor for Engel CC100
- replacement for 10,4" LCD
- Interface and timing compatible
- setting via On-Screen-Menue
- simple installation
- long term availability

• Description

Monitors SEM10-C are used as replacement for 10,4" LCD in control Engel CC100. The default timing is compatible to the control, this means after connecting the monitor the visualisation works correctly. Further adjustments can be made via on-screen-menu. The connector and interface for the graphic-signal are compatible to the control, so the replacement is easy. The monitors are mounting via sideways mounting brackets screwed into the existing frontpanel.
