Description:

The monitors SEM12-F are used as replacement for 14" CRT-monitors colour in Fanuc / GE Fanuc. The default timing is compatible to the control, this means after connecting the monitor the visualisation works correctly. Further adjustments can be made via on-screen-menu. The connector and interface for the graphic-signal are compatible to the control, so the replacement is easy. Fast and simple replacement with mounting holes in the frontpanel on the mounting points of the tube without any specialized knowledge.
