Description

The monitors SEM8-K are used as replacement for 9" CRT-monitors monochrome / green for the control from Fanuc / GE-Fanuc.
The default timing is compatible to the control, this means after connecting the monitor, the visualisation works correctly. Further adjustments can be made via on-screen-menu.
The connector and interface for the graphic-signal are compatible to the control.
Mounting from the back. Replacmentmonitor with milled frontadapter made of plastic with original curve of the CRT, so the replacement is easy. The monitor has to be mounted in the old CRT-chassis.
The curved front adapter guarantees a good sealing in the panel.
