- Replacement for 12" CRT-monitor BE511 monochrome
- connector and signal timing compatible to the control
- settings via on-screen-menu
- long-term availability
- front side regulators for Brightness/Contrast

Description

The monitors SEM12-F are used as Replacement for 12" CRT-monitors BE511 with control TNC332-335 from Heidenhain.

The default timing is compatible to the control, this means after connecting the monitor the visualisation works correctly. Further adjustments can be made via on-screen-menu.

Fast and simple replacement through mounting holes in the section of the 12" CRT without any mechanical changes and without any specialized knowledge.
