Description

The monitors SEM12-F are used as replacement for 14" CRT-monitors in Seibu SW5000 machine with control e.g. EDM EW-A5S. The default timing is compatible to the control, this means after connecting the monitor the visualisation works correctly. Further adjustments can be made via on-screen-menu. The connector and interface for the graphic-signal are compatible to the control, so the replacement is easy. Fast and simple replacement through mounting holes in the crt-chassis on the mounting points of the tube without any specialized knowledge.
