

TFT-replacement 9" EL

Planar Display

Overview:

- 9" TFT replacement Display Planar
- connector and signal timing compatible to the control
- adjustments via On-Screen-Menue
- long-term availability
- front adapter black

Description:

9" Displays are used as replacement for 9" EL Displays (Planar) in various machines. The default timing is compatible to the control, this means after connecting the display the visualisation works correctly. Further adjustments can be made via on-screen-menu. The connector and interface for the graphic-signal and power supply are compatible to the control, so the replacement is easy.

As there exist different types of original-displays, please clarify details prior your order.

Technical Data:

Overview:
