

TFT-replacement 10,4"

Siemens 840D Operator Panel (Toshiba)

Overview:

- 10,4" TFT replacement Display for Siemens 840 D Operator Panel
- replacement for LTM10C209A + LTA104A261F
- in Operator Panel OP31 (6FC5247-0AA16-0AA1) und OP032S (6FC5203-0AB20-1AA0)
- connector and signal timing compatible to the control
- adjustments via On-Screen-Menue
- front adapter black with holes

Description:

10,4" Displays are used as replacement for 10,4" Toshiba Displays LTM10C209A+LTA104261F in Siemens controls 840D in Operator Panel OP31 and OP032S.

The default timing is compatible to the control, this means after connecting the display the visualisation works correctly. Further adjustments can be made via on-screen-menu. The connector and interface for the graphic-signal and power supply are compatible to the control, so the replacement is easy.
